

**Advocates of Peace: Working to Reduce and Prevent Violence
and Conflict**

Team Research Plan

While your team will design a specific, original plan, please make sure it includes the following:

- 1) The names of all team members, and your team topic.
- 2) A break down of which team members will do what. You must be specific about where you are going, what information you plan on gathering, and why this will be useful for your final presentation.
- 3) Description of any equipment you will need.
- 4) A brief discussion of possible challenges and how you plan to deal with them.
- 5) A proposed budget. Each team has a maximum of \$40 to spend on things like transportation (CTA cards), copying, and so on. Please detail how much you will need for each specific item in your budget (i.e. 2 people round trip to library to gather articles = \$4 per round trip on CTA x 2 = \$8).

Your plan is due at 2:45pm today!

Other Details:

- 1) You must work in teams of 2 or more for any task that involves you leaving NLCP.
- 2) If you are conducting interviews or surveys please include a plan of how you will get people to participate. In other words do you need to set up appointments, go to a busy location, etc?
- 3) Please check with your supervisor about any appointments and/or visits you wish to set up and start making those arrangements today.
