

Advocates of Peace: Working to Reduce and Prevent Conflict and Violence Team Inquiry Project

Presentation Style Brainstorm

As you know the culminating event of the CB internship is a Showcase in which you will present what you discovered throughout the summer. Our mission at the showcase is to present the information that you gathered in a way that the audience leaves more informed and knowledgeable than when they came. Each team will have 8-10 minutes to present on their specific topics.

With your team you will be soon working to finalize your presentation for the showcase. Today your goal is to work with your team to brainstorm presentation *styles*. We want you to begin thinking of the possible ways you can present. This is **not** a time to develop the actual presentation. Instead think creatively of ways that will most effectively convey the information you gathered.

As you begin to think of ways to present your findings consider this:

What types of presentations do you find most interesting?

What makes a presentation memorable?

What ways do you best retain information?

YOUR MISSION:

1. Brainstorm a list of possible presentation styles
-**BE CREATIVE** i.e. Skit, lecture, power point, song, pictures, exhibit, TV show, radio broadcast, game show, audience participation, etc.
2. Choose at Least 3 possible presentation styles from the brainstormed list
-pick the ones that your team is most excited about
3. Type a detailed plan of the way that you would use each presentation style to present your research.
-Specifically tell us how the presentation will look
For example if your team chooses a lecture style tell us who will be presenting first, how long they will have, will they pass out handouts, etc.

THINGS TO REMEMBER WHEN CHOOSING A PRESENTATION STYLE:

*YOUR PRESENTATION MUST BE 8-10 MINUTES LONG.

***EVERY** MEMBER OF YOUR TEAM **MUST** BE ACTIVE IN THE ACTUAL PRESENTATION
